

TEACHER EXCELLENCE AWARDS

James Boe

Valley City State University
Co-Coordinator

Don Mugan

Valley City State University
Co-Coordinator

Sponsored by the International Technology Education Association (ITEA), the Teacher Excellence Award is one of the highest honors given to Technology Education classroom teachers and is presented in recognition of their outstanding contributions to the profession and their students. The Teacher Excellence Award provides public recognition at the local and international levels. On the province or state level, a certificate of achievement is granted at the affiliated association's annual meeting. At ITEA's annual conference, the honoree is formally presented an engraved plaque and other awards.

2009 TECHNOLOGY EDUCATION TEACHER EXCELLENCE AWARDS

ITEA OPENING GENERAL SESSION

Friday, March 27, 2009

9:00am - 10:50am

KICC - Cascade Ballroom

Please turn off all cell phones and pagers in respect to conference participants.

Teacher Excellence Awards

The Teacher Excellence Award is the most prestigious award given in recognition of Technology Education Teachers. The awards are presented to elementary, middle and high school teachers who are honored at this session. ITEA is a partner with Goodheart-Willcox Publishing in providing this recognition.

Welcome/Greetings	Ed Denton, DTE
Distinguished Technology Educators	Ed Denton, DTE
Teacher Excellence Awards	John Flanagan
	James Boe
	Don Mugan
Speaker Introduction	Ed Denton, DTE
Speaker	Nate Ball
Preview of Charlotte 2010.....	Jerianne S. Taylor
	Marie Hoepfl
Closing Comments and Prize Drawing	Susan Perry

Our keynote speaker, Nate Ball brings a multitude of talents to hosting the engineering reality-competition program Design Squad on PBS. Launched in 2007, the program was recently awarded the prestigious George Foster Peabody Award, one of the highest honors in electronic media. Ball will speak to the experiences that shaped him as a young engineer and how the technology teachers of today are inspiring the young inventors of tomorrow. As the chief technical officer and co-founder of Atlas Devices, he has designed new tools, including the Atlas Powered Rope Ascender, which enables military personnel and rescue workers to reverse-rappel up buildings at high speeds.
